EP303_Intro (INTRODUCTION INCOME FROM PUBLIC PENSIONS)
Now we are going to ask you a set of questions regarding income from different public pensions and benefits. We are interested in
the amounts, timing of these payments, and finally for how long you have received them.
1. Continue

EP671_IncomeSources (INCOME FROM PUBLIC PENSIONS IN LAST YEAR)
Please look at card 26.
Have you received income from any of these sources in the year ^FLLastYear;?
Main public sickness benefits: they are contribution-based payments received as an earnings replacement when an employee is
off sick.
Main public disability insurance pension: if the sickness turns out to be long-standing, and a return to work is not to be expected,
then the claimant will typically be transferred to a disability insurance pension (e.g. invalidity or incapacity benefit). The term
'pension' in the heading of this category is to be meant as 'regular payment', rather than relating to old age.
Public unemployment benefit or insurance: they are received, for a limited time period, by previous employees, later finding
themselves unemployed. Eligibility is based on a history of insurance contribution.
Public long-term care insurance: it includes cash payments meant to provide for long term care needs; receipt does not
necessarily depend on having previously paid contributions.
Social assistance: it includes cash or voucher programmes meant to provide a general 'safety net', guaranteeing minimum
resources to those otherwise lacking resources from either employment or contributory based social security benefits/pensions.
Code all that apply;
SET OF 1. Public old age pension
2. Public old age supplementary pension or public old age second pension
3. Public early retirement or pre-retirement pension
4. Main public sickness benefits
5. Main public disability insurance pension

#### AX001\_Introduction (INTRO ACCELEROMETER)

I now want to ask you to participate in a special measurement. To study ageing, it is important to know how much people over 50 sit, sleep and move. We will measure this in a precise and objective manner. For that, we want to ask you to wear a small activity meter for 8 days. The meter is small and is worn on the upper leg. We will not be able to track your location while you are wearing it, we only measure your movements. I will show you what it looks like now. You can attach it very easily to your upper thigh with a tape. It is similar to using a band-aid.

[Show instruction booklet with pictures and explain.](#)

Start of a **Non-proxy section**. No proxy allowed. If the respondent is not present or not capable to give consent to participation on her/his own, press **CTRL-K** at each question.

1. Continue

#### AX002\_Willingness (WILLINGNESS TO PARTICIPATE IN AX STUDY)

If you participate, you will wear this small meter on the upper leg, day and night, for 8 days. This means 8 x 24 hours. You do not need to move more or less than you usually do. We want to capture how much you sit, sleep and move around in your every day life. The motion measures are downloaded by us from the meter and are processed in an anonymized format. I emphasize that participation in this measurement is fully voluntary.

Would you be willing to participate in this special measurement?

[There are no exclusion criteria for the participation in this study. We are also interested in people who move very little or state to not move at all.](#)

1. Yes
5. No

IF (AX002 Willinansess <> a1)

Please select the reason why R is not willing to participate in the accelerometry study. Read only if unclear: "May I ask what the main reason is for you to refrain from participating?" Do not read out the answers.

1. R believes he/she is not active enough
2. R considers him/herself too old
3. R cannot participate because of work or hobby
4. R will be absent for a longer time
5. R considers it too complicated or too burdensome
6. R considers it as a violation of privacy
7. R prefers not to participate because of allergy/sensitive skin
97. Other (Specify)

IF (AX003 Reasons = a1)

#### AX007\_NotActive (REFUSAL CONVERSION NOT ACTIVE)

I understand that you consider yourself not active enough. For this study, it is important that not only active people participate but also people who are not so active or even disabled. Only then can the researchers get a complete picture of health and activity in the [country 's] population. If we would include only active persons, the health and activity of the ageing population would appear better than it actually is. Your participation in the study is hence very valuable.

Would you **now** be willing to participate in this special measurement?

1. Yes
5. No

ENDIF

IF (AX003 Reasons = a2)

#### AX008\_TooOld (REFUSAL CONVERSION TOO OLD)

I understand that you consider yourself too old. For this study, it is important that not only younger persons participate but also older persons. Only then can the researchers get a complete picture of health and activity in the [country 's] population. If we would include only healthy and younger persons, the health and activity of the ageing population would appear better than it actually is. Your participation in the study is hence very valuable.

Would you **now** be willing to participate in this special measurement?

1. Yes
5. No

ENDIF

IF (AX003 Reasons = a3)

#### AX009\_WorkOrHobby (REFUSAL CONVERSION WORK OR HOBBY)

I understand that you consider the device to be limiting in pursuing your work or hobbies. The device is very small, lightweight, and easy to wear. You do not have to worry about it during your daily activities. You don't have to turn it on or off, it works by itself. Most people who wear it almost forget they are wearing it.

Would you **now** be willing to participate in this special measurement?

1. Yes
5. No

ENDIF

IF (AX003 Reasons = a4)

#### AX010\_Absence (REFUSAL CONVERSION ABSENCE)

You indicated that you will be absent for a longer time. You only have to wear the accelerometer for 8 consecutive days. Only if you will be absent all the time until June 2020 you cannot participate. If you will be absent for a few weeks, for example for holidays or work, we can take that into account and send you the accelerometer in another week.

Would you **now** be willing to participate in this special measurement?

1. Yes
5. No
